VAC-U-MAX Spreader Feeder

Ideally suited for the Bakery Industry to reload topping machines. The auger tube is equipped with slots in the side to allow the material to evenly deposit into the topping feeder trough. Used in conjunction with a VAC-U-MAX Conveying System this can supply an ideal solution to a simple problem.

Features

- 1/4 HP TEFC Motor
- 1.5" diameter stainless steel open flight auger
- 304 stainless steel product contact parts
- Quick take apart without tools using quick release clamps
- 1/2 cubic foot capacity chisel bottom hopper
